COMPANY OVERVIEW

Stryker Capital LLC is a service-disabled veteran-owned technology company in Las Vegas, Nevada. It designs, builds and operates production web, mobile and AI-enabled software, and has launched five products across iOS, Android and the web.

CORE COMPETENCIES

Custom software & application development: Web and mobile applications, APIs and integrations, database-backed workflow tools, and modernization of existing apps.

Web development & digital services: Public-facing websites and service portals built responsive, fast, accessible (WCAG 2.2 AA target) and search-ready.

Mobile applications: iOS and Android apps from a shared codebase (React Native/Expo, Flutter), through App Store and Google Play release.

AI integration: Document analysis, image recognition, conversational assistants and multi-step automation using Google Gemini, OpenAI and Anthropic models.

Cloud & data: Google Cloud and Firebase, PostgreSQL, authentication, payments and analytics, deployed with documented handoff.

Technical project management: Requirements discovery, agile delivery, release management, testing and documentation from kickoff to launch.

PAST PERFORMANCE (COMMERCIAL)

MESA: AI social planning platform · Meal Social Inc. (portfolio company). Product design, full-stack development, mobile release, project management. Live on the App Store and Google Play, with a web app at mesa-app.link.

The Curator Lens: AI appraisal application · Stryker Capital (owned product). Product design, full-stack development, mobile release. Live on the web with mobile builds for iOS and Android.

Cogently: AI document analysis SaaS · Stryker Capital (owned product). Product design, full-stack development. Live SaaS product at cogently.app.

Crave It!: AI recipe & social app · Stryker Capital (owned product). Product design, full-stack development, mobile release. Live on the web, with iOS and Android releases.

DIFFERENTIATORS

- SBA-certified SDVOSB and VOSB, eligible for set-aside and sole-source awards
- Veteran leadership: eight years with U.S. Army Special Operations Command
- Owner-operator who personally designs, builds and ships production software
- Five production products launched across iOS, Android and the web
- Modern, low-maintenance architecture with AI built in where it adds value
